

## LED Tailgate Light Bars Datasheet

Item	Picture	Explanation	Voltage	Packing
YL-TLB-1059		<ul style="list-style-type: none"> <li>◆ Surface layer closed over soft transparent glue</li> <li>◆ 21pcs 3528 SMD 16*1.6*0.3CM</li> <li>◆ The middle red highlighting, yellow flashing around</li> <li>◆ Working Voltage: DC 12V</li> <li>◆ LED Viewing Angle: 120 Degree</li> <li>◆ Waterproof: IP65</li> </ul>	DC12V	MEAS:46X42 X19 cm QTY:50pcs
The above motorcycle tail light gives stop and turning signal .The middle 15LEDs will gives brighter red when brakes . Rest of each three LEDs from the left or right will blink as a turning signal .				
YL-TLB-3560(A)		<ol style="list-style-type: none"> <li>1. PVC strip,with super bright led light,total 114 leds(red:60led,white:30led,yellow:24led)</li> <li>2. Waterproof</li> <li>3. Easy installation</li> <li>4. 3MVHB 4945 double glue on the back of the product. rive off the protection paper then install the product to anywhere you need to</li> <li>5. Application: rear light: with different function for driving light, brake light, turn signal and reversing light</li> </ol> <p>Warning Lights:red color led light on / Brake light:red color led light on Driving light:red color led light on, but with 50% brightness Reversing light:white color led light on Left turn signal: the left side yellow color led light flash Right turn signal: the right side yellow led light flash</p>	DC12V-24V	PVC tube 158x17x14cm
YL-TLB-3548		<ol style="list-style-type: none"> <li>1. PVC strip,with super bright led light, for 48" (48 leds: red:32led,white:16led) and 60"(60leds:red:40led,white:20led)</li> <li>2. Waterproof</li> <li>3. Easy installation</li> <li>4. 3MVHB 4945 double glue on the back of the product. rive off the protection paper then install the product to anywhere you need to</li> <li>5. Application: rear light: with different function for driving light, brake light, turn signal and reversing light</li> </ol> <p>Brake light:red color led light on Driving light:red color led light on, but with 50% brightness Reversing light:white color led light on Left turn signal: the left side red color led light flash Right turn signal: the right side red led light flash</p>	DC12V-24V	PVC tube 128x17x14cm

<p>YL-TLB-3560(B)</p>	 <p>PVC tube</p>	<ol style="list-style-type: none"> <li>1. PVC strip,with super bright led light, for 48" (48 leds: red:32led,white: 16led) and 60"(60leds:red:40led,white:20led)</li> <li>2. Waterproof</li> <li>3. Easy installation</li> <li>4. 3MVHB 4945 double glue on the back of the product. rive off the protection paper then install the product to anywhere you need to</li> <li>5. Application: rear light:with different function for driving light,brake light,turn signal and reversing light</li> </ol>	 <p>4 pcs 19x90mm Mounting plate</p>	<p>DC12V-24V</p>	<p>PVC tube 158x17x14cm</p>
		<p>Brake light:red color led light on Driving light:red color led light on,but with 50% brightness Reversing light:white color led light on Left turn signal:the left side red color led light flash Right turn signal:the right side red led light flash</p>	 <p>3MVHB double glue on the back of the product</p>		
<p>YL-TLB-5048</p>	  <p>PVC tube</p>	<ol style="list-style-type: none"> <li>1.
